## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

I. Group I, claims 1–11, drawn to a system for enabling a customer to retrieve an invoice, over the Internet, classified in class 707, and subclass 1.

II. Group II, claims 12-20, drawn to a method for managing a client session over the Internet by providing a secure server which supports a secure socket connection enabling encrypted communications between the client browser application and the secure server, classified in class 705, and subclass 64.

2. Inventions Group I, Group II, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I, has separate utility such as administering revenue from complex subscriber groups. Invention Group II, has separate utility such as for managing revenue on a telecommunications network. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 3627

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Eden U. I. Stright on February 22<sup>nd</sup>, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
